## LABOR OBJECTS

Through the Trades Assembly to the New City Charter.

BOTH POLICE AND FIRE CHIEFS

Should be Elected by the People, Says the Assembly—Representatives to Appear Before the Charter Committee and Advocate Changes—Preparing for the Labor Day Celebration—Lower Street Car Rates Not Yet Obtained.

The Ohio Valley Trades and Labor Assembly met yesterday afternoon and although the meeting was not a long one, it was very interesting. President Tighe called the Assembly to order at 2 o'clock and Secretary Boes read the minutes of the last meeting.

The first business of importance was the report of the boycott committee, in which it reported progress and informed the assembly that certain jobbers and wholesale merchants of the city were handling non-union cigars and stogies. This portion of the report brought out a motion to have Garfield assembly (cigar workers), appoint a committee to investigate and request certain merchants to cease handling the "scab" goods.

The labor day committee reported that it had decided to give Garfield assembly the right of the procession and stated that the action was taken because the cigar-workers had secured and paid for their own band. The report drew forth quite a heated argument in which the representatives of the other unions participated, but it was finally decided to adopt the committee's report.

The committee appointed to wait on the street car people with a view to secure a special rate for workmen going to and coming home from work, reported through Mr. Grogan who stated that the directors of the company had shown signs of acting in bad faith at their last meeting by not asking the assembly's committee to be present as they had promised to do. He told of an agreement which he had with President Hazzard, of the company, but that gentleman was not present at the July meeting. The committee's report was accepted and it was continued. The members will probably meet with the railway directors at their next meeting which is to be held August 12.

The next report was the one that proved through the discussion that followed to be the feature of the meeting. It was the report of Mr. Bodley, who represents the assembly on the sub-committee on the new city charter. Mr. Bodley reported the progress of the committee up to its last meeting and that portion which relates to the appointment of the chief of police and the chief of the fire department by the proposed board of public safety. Was the signal for an expression of disapproval on all sides. About one-third of the delegates present had something to say and all of them were against the action of the sub-committee. It was decided that the assembly should fight the change vigorously and that the only way to defeat it was to have the charter submitted to the people for a vote on it. A motion was made and carried that President Tighe be appointed to attend all the meetings of the committee and use his efforts in securing changes desired by the assembly and workmen. A committee was also appointed to act as an advisory board, whose duties it was to look out means for carrying out the desired changes in the charter. The committee consists of five members and was named as follows: Messrs. Riley, Sims, Foster, Grogan and Bauer.

Secretary Salisbury having resigned his membership in the assembly, his place on the Ohio legislative committee was declared vacant and Delegate Goodhue was elected to fill the place. Mr. Riley was made chairman of the committee.

Under the head of new business the question arose why it was that the board of education had no labor paper on file at the public library, and after some discussion, the secretary was ordered to communicate with the board and request that one be placed on file for the benefit of the working men.
